

CSCI 3403: Web Programming Syllabus

Fall 2026

Oklahoma City University, Petree College of Arts & Sciences, Computer Science

1. INSTRUCTOR INFORMATION AND COURSE MATERIAL

Professor: Dr. Tashfeen, Ahmad (MSB 219B, tashfeen@okcu.edu¹)
Office Hours: Mondays, Wednesdays during 10–11 am and 5–6:30 pm or by appointment.²
Textbook: Mendez, Michael. *The Missing Link: An Introduction to Web Development and Programming*³
Time & Location: Tuesday, Thursday at 2:30–3:45 pm in MSB 120.

2. TENTATIVE SCHEDULE

Week	Friday	Event	(%)
1	Aug 28	Homework 1	10
2	Sep 4	Homework 2	10
3	Sep 11		
4	Sep 18	Homework 3	10
5	Sep 25		
6	Oct 2	Homework 4	10
7	Oct 9		
8	Oct 16	Midterm	15
9	Oct 23	Fall Break	
10	Oct 30		
11	Nov 6	Homework 5	10
12	Nov 13		
13	Nov 20	Homework 6	10
14	Nov 27	Thanksgiving	
15	Dec 4	Homework 7	10
16	Dec 11		
17	Dec 18	Final	15

TABLE 1—This may change depending upon class progress.

3. GRADING CRITERIA

When accepted, work that is $n < 3$ days late will receive no more than $100(1 - 0.1n)\%$ of credit (10% deduction per day). For certain work, late submissions will not be accepted. Any submission that is not easy to read will receive a zero.

Total $t\%$	Grade	Total $t\%$	Grade	Total $t\%$	Grade
		$t \geq 93$	A	$93 > t \geq 90$	A ⁻
$90 > t \geq 85$	B ⁺	$85 > t \geq 82$	B	$82 > t \geq 80$	B ⁻
$80 > t \geq 75$	C ⁺	$75 > t \geq 72$	C	$72 > t \geq 70$	C ⁻
$70 > t \geq 65$	D ⁺	$65 > t \geq 62$	D	$62 > t \geq 60$	D ⁻
$60 > t$	F				

TABLE 2—A grade of Incomplete (“I”) will only be assigned in case of documented extenuating circumstances. The “I” will be removed in accordance with university policy stated in the online undergraduate catalogue. Please also see subsection 4.4.

¹Prefix [XXXX1234] followed by a space to all emails sent to the instructor, e. g., “[CSCI2114] Help with Homework 7.”

²Zoom for a virtual meeting.

³A copy should be available at the [Open Textbook Library](#).

4. POLICIES & RESOURCES

4.1. General Academic Guidelines. For an up-to-date version of the guidelines please visit the university [sharepoint](#), see the [OCU course schedule website](#) for the finals week schedule and visit the [online classroom](#).

4.2. Course Description. Introduction to: how the internet works, how to build web sites, and the multiple options available for building websites. Includes HTML, CSS, Javascript, web servers, and server-side programming.

4.3. Course Learning Outcomes.

- Understand the fundamental concepts of how the Internet functions and how web servers deliver content.
- Demonstrate the ability to create and style static web pages using HTML and CSS.
- Develop interactive client-side features with JavaScript and explain the role of server-side programming in dynamic website construction.

4.4. Academic Integrity. The cheating rule for this class is simple: *don't turn in anything you did not understand*. I encourage you to get help and exhaust your resources. Though, if you turn in something (or answer a question with something you do not understand; can not explain) and I unsuccessfully ask you to explain your work, that will result in an *automatic F in the course* and disciplinary action will be taken. If you've been asked to demonstrate your work to the professor then you'll need to do so in his office hours or make an appointment. If you've been asked to demonstrate your work and you fail to do so, you will receive a zero in the assignment. For more, read the *Academic Honesty* section of the [courses' catalogue](#).

4.4.1. Artificial Intelligence (AI). Help obtained by an AI, e. g., Large Language Model chat agent should be documented and turned in with the work. You may use AI to understand a general concept but it should *never* write or solve anything for you. A student who abuses AI will forfeit the right to use it for the remainder of the class.

4.5. Religious Accommodation. Oklahoma City University seeks to be supportive of religious observance among the members of our diverse campus community and to be as accommodating as possible. Students should discuss with their instructor at the beginning of the semester forms of religious observance (dress, fasting, specific prayer times) that may affect their full participation in the course. Students should also compare the class schedule to their own religious calendar to determine if there will be any class days in which the student expects to be absent due to the observance of a religious holiday. *Students must notify the instructor, in writing, of the expected absence within the first two weeks of the semester.* The instructor will then work with the student to develop a plan to reschedule any exams, assignments, or course activities for that day. The instructor, at his/her own discretion, will make reasonable accommodations wherever possible. Students should recognize that there may be some course aspects that cannot be rescheduled or accommodated, and it will therefore rest upon the

student to determine whether they wish to remain enrolled in the course or have their grade potentially affected.

4.6. Mission Statement. The Petree College of Arts and Sciences provides a supportive, student-centered learning environment. Through an interdisciplinary curriculum that promotes active learning and individualized instruction, students are encouraged to think broadly, to find their passion, to collaborate with others, and to connect with the broader community.

4.7. Grook.

Put up in a place
where it's easy to see
the cryptic admonishment
T. T. T.

When you feel how depressingly
slowly you climb,
it's well to remember that

Things Take Time

—Piet Hein (1970)
